

# SkyRise

Discover *Endless Possibilities* with Sustainable, Custom Modular Exhibits

Say hello to the look of custom and the ease and sustainability of modular components with SkyRise. You can achieve the exact look and feel you desire by combining straight and curved panels, lighting, shelving, LED walls, edge lighting, monitor mounts, and numerous accessories.

Our modular exhibit system offers flexibility and innovation, perfectly combining elegance and efficiency.

## Key Features of the SkyRise Modular Exhibit System

### Straight Walls and Panels

Quick and easy modular wall building with frame options allows you to create impressive exhibits using fabric, panels, or a combination. Variety of frame sizes include 2'x4', 4'x4', 2'x8', and 4'x8'.

### Curved Walls and Panels

Curved modular exhibit frames create visually appealing curved structures and walls. Constructed in lightweight aluminum and sturdy stainless steel, these frames are available in several radii, widths, and heights.

### An Array of Finishes

Available finishes include fabric graphics, frosted windows, and semi-rigid panels in black, gray, and white.

### LED Walls

Integrate our LED tiles into your SkyRise frame system to create an eye-catching, high-impact wall or structure.

### Conference Rooms, Storage Areas, and Towers

Build large walls for architectural impact and create enclosures, including private spaces with lockable doors, to add functionality that's right for you.

### Aluminum Frames

Industry-leading lightweight 3" aluminum structures are durable and easy to install while providing flexibility.

### Edge Lighting

Featuring a double row of high-intensity LEDs, SkyRise Edge Lighting delivers an even, bright glow with easy installation. Choose from hundreds of color options with both static colors or dynamic color-changing effects.

### Impact Resistant Crates

Specially designed crates with compartments for efficient storage and shipping protection. Half-size crates and pallets help save on shipping costs.

## Benefits of the SkyRise Modular Exhibit System

Built to withstand the rigors of the trade show floor, SkyRise boasts quality construction that guarantees longevity. Every frame, fabric graphic, and semi-rigid panel is cut precisely, ensuring a flawless fit. Experience the convenience of our cam-lock connected frames, enabling tool-less installation and dismantling, saving you valuable time, effort, and costs.

Elevate your presence on the show floor with Skyline's industry-leading fabric graphics. With vibrant color saturation and fire retardancy certification, these graphics are designed to make a lasting impression.

Combine stunning visuals with the stability, strength, and flexibility of the SkyRise wall system. Its various frame sizes, finishes, and architectural options give you unparalleled design flexibility. Hide electrical wires for a clean look, which is particularly advantageous for island and peninsula exhibits.

The frames are sustainable and can be used repeatedly, reducing the need for constant production of new materials. This reusability aspect helps to minimize waste and diminishes the environmental impact associated with the construction industry.

**SkyRise is  
available  
for rental or  
purchase.**

With production facilities in the USA and service centers in key venue cities, we ensure cost-effectiveness, durability, and a seamless exhibit experience. Experience the stability, strength, and design flexibility of the SkyRise, built to make installation quicker and easier. Its sleek, modern design and wire-hiding capabilities make it the ultimate choice for larger, taller exhibits.

This modular and visually impactful exhibit system may be combined with other Skyline modular products and digital activations across a range of booth sizes, especially larger inline and island exhibits.
