

ExhibitNow 1303 AMPLIFY Backwall and HALO Counter

This PDF template can be opened directly in Adobe Illustrator. You can design right on the “DESIGN HERE” layer, or copy each individual template into the software program of your choice.

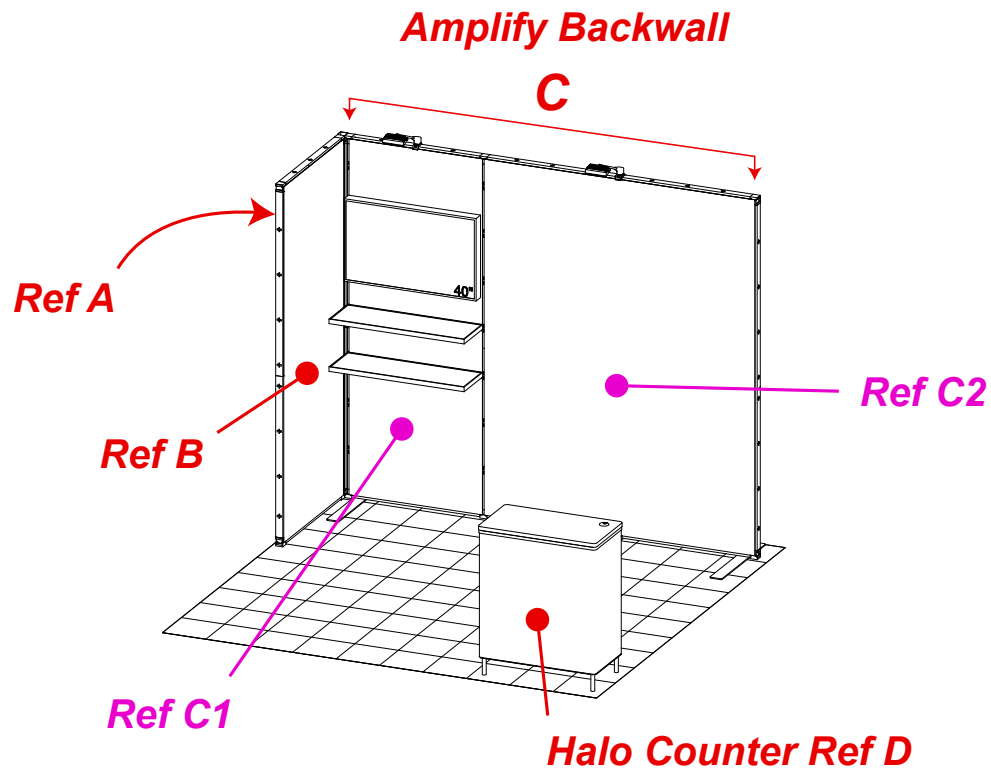

Wall panels (Ref A) can contain either Independent Art, Continuous Art or Combinations of the two given certain restrictions.

If using Continuous Art, layout your artwork across the given template keeping critical art within the Green boxes and allowing background art to cross over the Art Size red lines onto the adjacent panel(s).

If wall panels are to be Independent in design, fill each wall to the given Red box and then use the Red box as a MASK for that independent wall panel to separate the different wall panels.

Don't worry about overlapping the red boxes, the art will be separated along the red box lines during production to insure the integrity of each independent panel.

Please contact your Skyline Representative with questions.

This display kit has multiple graphic panels in it, each with its own Ref Letter.
Please provide separate art for each art reference in the kit.
